

## Shi Wan NET Post

### My Favourite Subject

By Mr. Duncan, Miss Greta and Mr. William

Newsletter #15

### Miss Greta

My favourite subject at school was art! I loved drawing and making lots of different pretty pictures! Here is a picture I drew and painted in high school!

In our art classroom we had fish! This is me and my friends in the art classroom at school! I loved drawing pictures of the fish.

This was our art classroom! Can you see all of the artwork on the walls?

### Mr. Duncan

My favourite subject at school was PE! I loved to run around and play games! Here is a picture of me in a race! I won the race because I was so fast!

We did a lot of racing games in PE. Here, I did an egg race! I won this race as well!

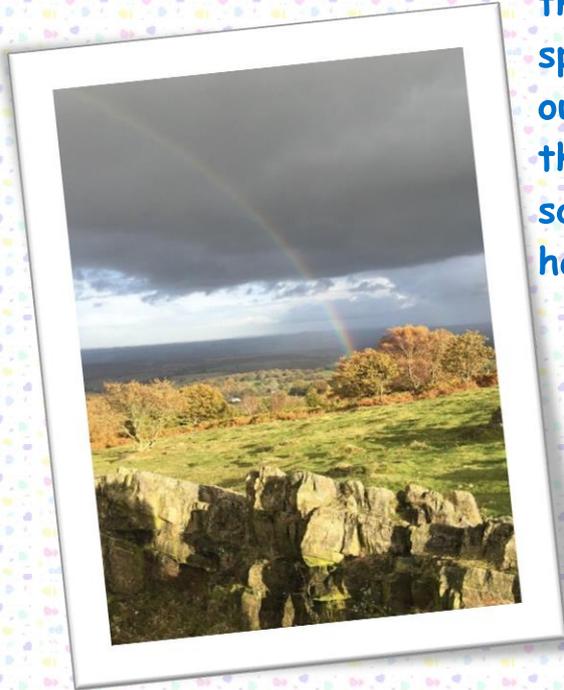

Here, I had to race with a ball in between my legs! I had to jump to the finish line! If you dropped the ball you had to go and pick it back up! Do you like PE?

# Mr. William

My favourite subject at school was Geography. Geography was the study of the Earth and what happens on Earth! We can learn about earthquakes, weather, volcanoes, oceans and much more! Here is a picture of a river I studied on a Geography school trip.

In this photo, I am using this pole to measure the length of the river! In Geography, we spend lots of time studying outside. We don't study inside the classroom! It was very cold so I had to wear a coat and a hat!

I like Geography because I love being outside. We can study lots of different things in the sky. Do you know what this is in the sky in the photo? Yes, it is a rainbow! It has so many pretty colours!

## Question Time!

Try to answer the questions with your parents, brother or sister!

- ♥1) What was Mr. Duncan's favourite subject at school?
- ♥2) Why does Mr. William like Geography?
- ♥3) What animals were in Miss Greta's art classroom?
