Seasons

Miss Elaine

Autumn is my favourite season. This season is also called fall! I love when the weather changes and the air is cool and fresh. If you look at the trees around you, you can see that the leaves change colour.

The leaves are green in the summer, but in the autumn they turn orange and red! My favourite thing to do in autumn is to go hiking.

It is not too hot outside and you can enjoy the beautiful nature around you. Autumn is the perfect time to bake yummy treats as well! I love to use pumpkins and apples to make cookies and pies.

skiing

My favourite season is winter. In Canada, we have very cold, rainy, and snowy winters. During winter, you must wear warm clothes to make sure you don't get too cold. Whenever we get snow, we would build a snowman and have snowball fights with our friends. My favourite winter activities are skiing and snowshoeing, which require a lot of snow- we won't be able to do these in Hong Kong. After a cold day outside, I love making hot chocolate with little marshmallows and getting under my cosy blanket to watch a movie with my family.

Miss Catherine

I love the summertime. Summer is my favourite season because of the long summer holidays. During the summer holidays, I can travel with my family and friends and try new activities. We can also hang out with our friends and go swimming at the beach. Remember to wear sunscreen, your favourite sunglasses and some floaties when you go!

Have you ever been to Ocean Park's Water Park? Although I haven't been there yet, I am excited to see the water fountains and slides of different sizes and colours. I will try to be brave and slide down the tallest one. I think it's the perfect place to go this summer with your friends or family. What will you do in the summertime?

sugarcane

Miss Raji

Spring is my favourite season of the year. It is because we can experience a mix of both hot and cold weather at the same time. Mornings and nights are cold, the days are hot. In winter, the leaves that fall out of the trees grow back in Spring. You would see varied green colours in plants and trees all around. Spring is also a special time for all farmers as it is the season of harvest. Harvest festivals are celebrated in many countries around the world.

In India, the harvest festival is celebrated like New year and the farmers worship Sun God. Sugarcane is the most popular crop that grows in this season. I love sugarcane juice. Do you know that in Hong Kong we get the sugarcane juice throughout the year?

Spring
